

The Shelf™ Hybrid Smart Puck 3.0

Part # / SKU: shelf-3.0

The Shelf Hybrid is the smart way to offer convenient wireless+ charging without disrupting the experience for high-limit cash games, tournaments, Blackjack, & Baccarat tables.

- All Wireless Charging with Mag Safe-style alignment for perfect placement every time
- Both USB-A & C backup ports for fast, flexible & reliable cable charging
- Patent-Pending Puck Design mounts discreetly under tables
- Perfect for Casinos – keep players happy, charged, and focused on the action

S (Secure fair play): Keeps phones off the table to prevent cheating and ensure fair play, a critical concern for casinos

H (Harness cutting-edge tech): Ready for rumored port-less iPhones, appealing to tech-savvy casino operators.

E (Ensure constant power): Charged phones are a necessity in cashless casinos, where mobile devices are central to transactions.

L (Lift table efficiency): Keeping phones off the table increases dealing speed, a direct benefit for casino profitability.

F (Free from juice jacking): Wireless charging is immune to juice jacking, a cybersecurity concern at public charging stations, making it safe for casino patrons.

The Shelf™ Hybrid Smart Puck 3.0
