

QC3 USB THREADED BARREL WITH LED USB

Part # SNC-BarrellA30

QC3 USB Threaded Barrel with LED USB and cable options

This new threaded barrel USB is for manufacturers (i.e. Slot machines, bars, furniture) It fits into standard D-lock hole on most slot machines. Power is supplied by a separate QC3 charging base. Unit comes with a separate 3 or 6 foot modular cable. Unit has Blue LED light glowing around the female USB. Since it is modular, it is easy to service without pulling wires. If the USB becomes damaged or

the technology changes, you can just change out the barrel. This is the state of the art USB charging plug, designed for manufacturers of slot machines, but available for use in any commercial venues such as bars, restaurants, break rooms, employee lockers, and manufacturing facilities.
