

PREMIUM USB SMART PUCK IINL

unlit Part # SNC-SmartPuckIINL

Premium USB Smart Puck II

Introducing our Premium USB Smart Puck II.

We have replaced the LED with plastic trim. Blue over mold will accent the ports since blue is the standard color for charging ports. This is a modular puck that comes with a 3 or optional 6 foot cable.

The Smart Puck II charges all smart phones and tablets that use a USB Type A or C charging cable.

Pucks are mounted under a table or bar where the customer sits.

The Smart Puck II features:

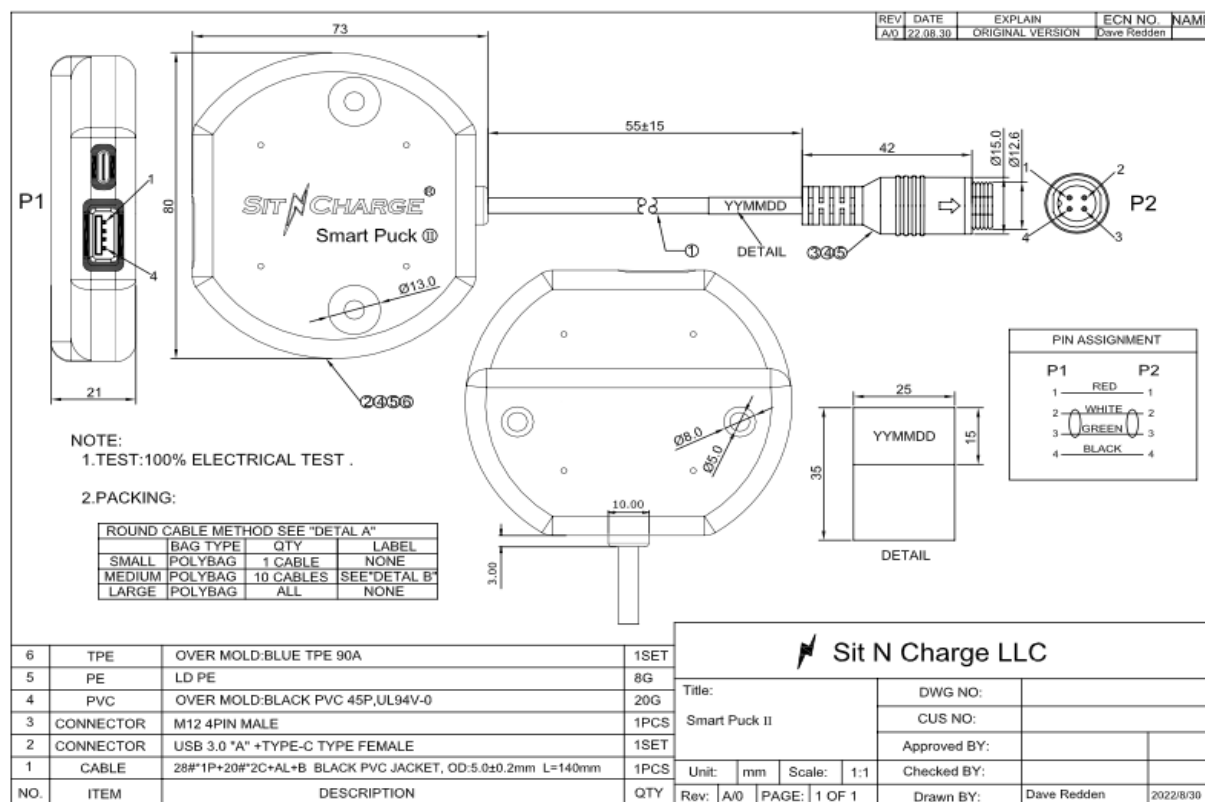

- Attaches to our QC3 Compatible Transformers.
- Aviation threaded connectors used, so cables won't shake or vibrate apart
- Blue plastic trim used around the ports, to help your customers see the ports.
- The Smart Puck II is a part of a modular system that uses separate cables. This makes it easy to service. You can easily replace just the puck and not the wiring harness.
- Our Smart Puck II eliminates the liability from having 110v outlets accessible near the customers at your bar or table.
- Our Smart Puck II system uses DC power at the puck which is much safer than using AC power.

PREMIUM USB SMART PUCK IINL

unlit Part # SNC-SmartPuckIINL

Reference	SNC-280-USB-SMART-PUCK-II
Model	# SNC-SmartPuckIINL
Technology	Qualcomm Quick Charge 3.0
Input	Max 5-6.5V/3A, 6.5-9 V/ 2A, 9-12V/1.5A; 5V/2.4A
Material	PC
Size	80 x 73 x 21 mm
Weight	150 g
Color	Black
Certifications	CE, FCC, RoHS
